PBC Constitutions - National picture

The Prescribed Body Corporate (PBC) research snapshot series has been developed to share findings from the Native Title Research Unit's (NTRU) investigation into the constitutions and financial reports of PBCs. This research forms part of the PBC Capability project which aims to develop a long-term national picture of the PBC sector. This snapshot provides an overview of the main findings from this research and identifies key areas where PBCs have adapted their constitutions from the default rules offered by the Office of the Registrar of Indigenous Corporations (ORIC).
